

U.S. Serial No. 10/009 960

Attorney Docket No. 1854.PC

AMENDMENTSIn the Claims:

1-16. (Cancelled)

17. (Currently amended) A cosmetic resin composition consisting essentially of an amphoteric urethane resin having a carboxyl group and a tertiary amino group in one molecule thereof, the amphoteric urethane resin having polysiloxane linkage in its structure, wherein the amphoteric urethane resin is obtained by reacting the following components (A) to (D) in excess of isocyanate groups so as to produce a prepolymer containing isocyanate groups and reacting the prepolymer with the following component (E);

(A) one or more polyol compounds selected from the group consisting of polyester polyol, polyether polyol, polycarbonate polyol, polybutadiene polyol, polyisoprene polyol, polyolefin polyol, polyacrylic ester polyol and combinations thereof, wherein the one or more polyol compounds are not formed from  $\alpha,\beta$  ethylenically unsaturated carboxylic acids;

(B) a polyisocyanate compound;

(C) a polysiloxane compound having an active hydrogen;

(D) a compound having an active hydrogen and a carboxyl group;

(E) a compound having an active hydrogen and a tertiary amino group.

U.S. Serial No. 10/009 960

Attorney Docket No. 1854.PC

18. (Currently amended) A cosmetic resin composition consisting essentially of an amphoteric urethane resin having a carboxyl group and a tertiary amino group in one molecule thereof, the amphoteric urethane resin having polysiloxane linkage in its structure, wherein the amphoteric urethane resin is obtained by reacting the following components (A), (B), (C), and (E) in excess of isocyanate groups so as to produce a prepolymer containing isocyanate groups and reacting the prepolymer with the following component (D);
- (A) one or more polyol compounds selected from the group consisting of polyester polyol, polyether polyol, polycarbonate polyol, polybutadiene polyol, polyisoprene polyol, polyolefin polyol, polyacrylic ester polyol and combinations thereof, wherein the one or more polyol compounds are not formed from  $\alpha,\beta$  ethylenically unsaturated carboxylic acids;
- (B) a polyisocyanate compound;
- (C) a polysiloxane compound having an active hydrogen;
- (D) a compound having an active hydrogen and a carboxyl group;
- (E) a compound having an active hydrogen and a tertiary amino group.
19. (Previously presented) The cosmetic resin composition according to claim 17 or 18, wherein the cosmetic resin composition is for a hair fixative.
20. (Previously presented) The cosmetic resin composition according to claim 17 or 18, wherein the amphoteric urethane resin is dispersed or solubilized into water.
21. (Previously presented) A cosmetic using the cosmetic resin composition according to claim 17 or 18.
22. (Previously presented) The cosmetic according to claim 21, wherein the cosmetic is at least one selected from the group consisting of a mousse hair fixative, a gel hair fixative, a spray hair fixative, a pump spray hair fixative, a conditioning shaving cream agent and a film forming agent.

U.S. Serial No. 10/009 960

Attorney Docket No. 1854.PC

23. (Previously presented) The cosmetic resin composition according to claim 19, wherein the amphoteric urethane resin is dispersed or solubilized into water.

24. (Previously presented) A cosmetic using the cosmetic resin composition according to claim 20.
